LIGHTING IN ARCHITECTURE

# EXQUISITE EXHIBIT

DHA Designs celebrates 30th anniversary with ultimate darc award!

DARC AWARDS / ARCHITECTURAL WINNERS • DARC NIGHT INSTALLATIONS  
APPLELEC OLED REVIEWED • PLDC & IALD ENLIGHTEN EUROPE ROUND UPS

# New Products

We take a closer look at some of the new lighting products hitting the market.

## Flex Tube Pixel SE

### Acclaim Lighting

Flex Tube Pixel SE is a flexible, side-emitting LED strip that features RGB control of every 3.27-inch section for virtually any exterior or interior lighting application. IP68-rated and submersible to three feet, Flex Tube Pixel SE has a highly durable, impact-resistant, PVC body that can be ordered to length to suit project requirements for customised lighting applications. Flex Tube Pixel SE provides a 160-degree beam angle, operates off of 24-volt DC power and produces 90 lumens per foot.

## Omnia Series

### Nexoluce

The Omnia series by Nexoluce features uplights, downlights and projectors that are able to supply up to 24W, with a sleek body starting from 10.8cm in diameter and 7.5cm in depth. The COB version of Omnia hosts a new generation of Bridgelux LED and reaches 160lm/w with a variation of narrow, medium, wide and asymmetric optical systems. The other option of the product hosts Cree Power LEDs PCB with either three or nine units. The light beam angle ranges from 3.5 to 86 degrees.

## Krane

### Arcluce

Krane combines unique and innovative design to solidity and elegance. It is available for pole installation in single or double application, both provided with a linear soft optic for high visual comfort without glare and no light pollution. In an elegant and solid extruded aluminium body, Krane finds its natural position in the most modern urban areas, it is the ideal solution for lighting business districts, new town squares and prestigious parks.

## Slash

### unonovesette

Slash is designed for outdoor in-ground or surface mounted applications. It is available with different optics including wall washing and wall grazing. The internal optical system is tiltable +/- 20° from the outside of the fixture with a dedicated knob to minimise light pollution and optimise the light effect. Glare control is further enhanced by the unique linear anti-glare louvre, which is especially designed for wall washing and grazing applications providing exceptional uniformity.

## Spot Vario

### LEDVANCE

The Spot Vario provides the ultimate flexibility in retail lighting installations. This recessed spotlight can be used as a classic downlight or as a wall washer. As a result, retailers can reconfigure their installation according to need, using accent or general lighting to illuminate temporary displays and promotions to best effect. Spot Vario is easy to install because it is connected to an external driver with a bayonet connection. The luminaire and the ECG can therefore be easily separated to allow DALI or DIM devices to be connected.

## DIALux evo 8.1

### DIAL

With DIALux evo 8.1 DIAL has developed a new version of its lighting design software, which is now available for download free of charge. With this update the software is not only faster but also offers many new features, which make the user's work easier. Among the new features are a help function, an assistant for importing DWG plans and documentation for zones extending over several floors.
